Note, Before these Accts are finally closed, justice and propriety call upon me to signify that there are Persons within the British Lines – if they are not dead or removed, who have a claim upon the Public under the strongest assurances of Compensation from me for their services in conveying me private Intelligence; and which when exhibited, I shall think myself in honor bound to pay. —

Why these claims have not made their appearance ere this unless from one of the causes above mentioned – or from a disinclination in them to come forth till the B. force is entirely removed from the United States, I know not – But I have thought it an incumbent duty on me to bring the matter to view that it may be held in remembrance in case such claims shd hereafter appear

		To Interest of £599 u 19 - 11. being the Bal.ce due me Dec.r 31. 1776 — The amount having been applied to Public uses in the preceding year — from whence to wit July 1. 1773 I charge it at 6 p.r C.t p.r ann	288	—	—

			£1972	9	4

* altho' I kept Mem.rs of these Expenditures I did not introduce them into my Public accounts as they occurred — the reason was, it appeared at first view, in the commencement of them, to have the complexion of a private charge — I had my doubts therefore of the propriety of making it — But the peculiar circumstances attending my Command, and the embarrassed situation of our Public affairs which obliged me (to the no small detriment of my private Interest) to postpone the visit I every year contemplated to make my Family between the close of one Campaign and opening of another — and as this expence was incidental thereto, & consequent of my self denial I have, as right I think I ought, upon due consideration adjudged the charge as just with respect to the Public as it is convenient with respect to myself; and I make it with less reluctance as I find upon the final adjustmt of these acc.ts (which have, as will appear, been long unsettled) that I am a considerable loser

— My disbursements falling a good deal short of my receipts, & the money I had upon hand of my own — For besides the Sum I carried with me to Cambridge in 1775 (and which exceeded the aforementioned Bal.ce of £699-19-11.) I received Monies afterwards on Private Acct. in 1777, and since which, except small sums that I had occasion then & there to apply to Private uses, were all expended in the Public Service — And thro' hurry, I suppose, & the perplexity of business (for I know not how else to acct. for the deficiency) I have omitted to charge — whilst every debit against me is here credited
